Utica Marsh Wildlife Management Area

Utica, Marcy - WMU 6P, 6R, 6S

Utica Marsh is a unique urban wetland situated partly on the edge of the City of Utica, partly in the Town of Marcy, sandwiched between the Mohawk River on the south and the New York State Barge Canal on the north. The mixture of cattail wetlands, wet meadows, open water pools and flooded willows create a diverse marsh habitat that harbors a tremendous variety of plants and animals, especially birds.
