

This heat map shows buildings that were constructed between March 2015 and 2020.

Redder areas are those with more building construction, while yellow areas have had less construction of new buildings during this time period. This shows the fastest growing communities in the state.

Notable is missing YR_BLT field in Nassau County along with the towns of Brookhaven, Huntington in Suffolk County, along with Cortlandt in Westchester County. Without that data, I couldn't query those properties or
