Cheney MT.  
Trail**

**The "#7 MILL"**  
and "tailing" pile at "Switchback"  
Built in 1943, this facility could  
crush, separate, and fuse back  
together enough iron ore from  
Mineville, Witherbee, and Fisher Hill  
to produce 300 long tons of  
"Bessemer quality"  
sintered iron ore per hour!!

To learn more and see photographs,  
visit the "Iron Center" museum  
34 Park Place, Port Henry.
