

Kibby Pond is located at the end of the Kirby Pond Trail, which is about 1.5 miles long, the 1/2 mile gaining about 250 feet in elevation, then a slight gain after that. You cross two small streams and pass a wetland. There is a campsite at the end of the trail, and the lake is popular for fishing. The trailhead is located off of NY 8, near where the East Branch of Sacandaga leaves in the road and heads back into the gorge.
