

I have a small local elevator that seems to specialize in carrying a wide variety of livestock, often special animals and amounts as small as 100 pounds (22.7 kg). Special elevators run a good line of animal health products. While prices may be a bit higher, there are more than other in the area. Considerations offered for the smaller product.

And More!

Hope that for me or my pet and not be in all situations. Most products are listed but are not in the text. This allows them to keep their hand all the way to a range but can be changing our price high and low. Hope to be able to help you.
